CloudFlare vs Incapsula vs ModSecurity - LinkedIn SlideShare

Cloudflare and CloudFront are both great tools. I would recommend Cloudflare for sites that are not hosted on Amazon, and CloudFront for sites using Amazon Web Services. The pricing and features are comparable. Overall, Cloudflare's free tier offers more services, which gives it a slight edge over the competition.

Cloudflare vs Imperva CDN | TrustRadius

CloudFlare offers 86 POPs vs. Incapsula with only 30, But the effect of this on DDoS mitigation is only indirect (see Number of Data Center). If your organization has a non-web service like a proprietary protocol, then only Incapsula can serve you with its latest IP Protection topology. Incapsula vs. CloudFlare - Deployment
