All Honda engines model numbers start with the letter "G," such as "G100", "GX610", or "GXV160." This is the base engine model. The engine model and serial number should be adequate for most of your needs. However, if you need the detailed engine type, you can find an engine identification guide [here](#).

Honda Engines | Engine Type Identification

Motorcycle VIN numbers give a world of information if you know the decoding secrets. While they may seem like random strings of characters, VIN codes reveal the motorcycle's manufacturer, its model, engine size and other characteristics, where the motorcycle was manufactured (both country and plant), as well as the year it rolled off the assembly line.
