I am working on a 2012 International with a Maxxforce 13. Truck idles good, but if you rev it it will black smoke and when you drive it it is down on power and will steadily smoke black smoke. I have codes Underboost SPN 102 FMI 18 and EGR High Flow Rate Detected SPN 2659 FMI 20.

I am working on a 2012 International with a Maxxforce 13 ...

Navistar/MaxxForce Engine Overview. On September 27, 2012, Navistar announced that it was dropping its MaxxForce 15-liter heavy-duty diesel engine in favor of the Cummins ISX15, and that its 13-liter heavy-duty diesel engine would continue to be built but would utilize selective catalyst reduction(SCR) technology instead of its, once prominent, exhaust gas recirculation-only(EGR) engine.

If memory serves correct, I tried our local international dealer a while back for a Cummins EGDG sensor and when he was done crossing the part number it ended up the same international party number as one we had gotten earlier for 6.4. 3626432C1

IC CE200 (Maxxforce DT) DPF Delta Sensor - School Bus ...

This running test for injection control pressure (ICP) is a good test to run since these specs determine the fuel injection operation. This is the DT MaxxForce which requires 870 psi of ICP to run while the maximum can go as high as 4500 psi. These high pressures create problems if there is a leak in the high pressure manifold or anything else related in the system.

In 2008 we purchased an International CE school bus with a MaxxForce 7 diesel engine. It also was a hybrid that operated up to 50km per hour. The idea was to assist the launch out of the gate then going full diesel after the 50km per hour speed was met. It worked fine for a few years but finally the batteries gave out and it was instantly transformed to a standard diesel engine.
