The first part in the paper reads that a three-dimensional Lie algebra is first introduced, whose corresponding loop algebra is constructed, for which isospectral problems are established. By employing zero curvature equations, a modified Kaup-Newell (mKN) soliton hierarchy of evolution equations is obtained. The corresponding hereditary operator and Hamiltonian structure are worked out ...

Lie well. Sneaking isn't just about moving quietly and not being seen. Equally important are the "social" sneaking skills - skills that will help you get what you want out of people and help you get out of trouble if you're caught sneaking around. Chief among these skills is your ability to tell quick, convincing lies.
