PE: Throwing and Catch Flashcards | Quizlet

Also known as a table-top suplex. The wrestler lifts the opponent up so the opponent is horizontal across the wrestler's body then falls backward, throwing the opponent over their head down to the mat back-first. This slam can be either bridged into a pin, or the wrestler can float over into another fallaway slam. This move is sometimes used as a continuation move from catching the opponent's high-cross body, to emphasize the wrestler's strength.
